Job Description Pentair Food & Beverage is a Global Technology Leader in the Food & Beverage and Industrial Gas market. Within our F&B business unit, the product category 'Sustainable Gas Solutions' is committed to minimizing climate change with leading renewable energy and carbon capture solutions. Whether CO2 Recovery and Extraction for carbon utilization and storage or Biogas Upgrading into Bio methane and CO2, our technologies help our customers to lower their carbon footprint and become part of the circular economy. Currently we sell and service our products in more than 150 countries around the world, with major sites in Venlo/NL, Fredericia/DK, Daytona Beach FL/USA and Ningbo/China. Our clients in agriculture, food & beverage, waste-to-energy and industrial gases benefit from our strong brands Haffmans and Union. In order to achieve our further growth, we are looking for a Project Manager Systems Job Description In this role you are responsible for the realization of carbon dioxide recovery and biogas upgrading projects from the moment of order intake to the moment of successful start-up. This means you bear final responsibility for quality, technical aspects (including detail engineering) and finances. Apart from your contacts with the various internal departments, you will have frequent communications, both nationally and internationally, with customers and suppliers. During the realization phase, you will manage a multi-disciplinary project team. During the assembly and start-up phase, you will manage employees on location from Venlo together in cooperation with the chief commissioning engineers. Supporting sales with upcoming projects with advice on budget, planning and risks. Key Qualifications

You have a relevant technical background at Bachelor (HBO) (higher professional training) level, preferably in the direction of mechanical engineering, physics or processing technology. 5+ years of

International experience within Project Management.	Project Management Certification (PMI / Prince / ...)	You are able to travel	
(international) to our customers for projects meetings when required (approx. 6 times a year / max 10%).			

Competences

You have natural persuasiveness, are highly customer-oriented with strong communication skills. You can convince people by argument, have a positive attitude and a pro-active approach to your work. You also have a practical nature and are capable of setting your own objectives and delegating tasks to the team. You feel involved with the people and the organization and you can establish relationships quickly
