Apple MacBook Pro retina 13 inch (2014)

8GB RAM  
 256GB storage  
 Core i5 (I5-4278U) 2.6Ghz Processor  
 two USB 3 ports, two "Thunderbolt 2" ports, an HDMI port, an audio in/out port, and an SDXC card slot.  
 The installed OS is Big Sur version 16.5.01

The MacBook works perfectly, the battery as well. I haven't used it for years now as I have another one, so the usage is not extensive. There is a small dent in the outside and some small scratches on the bottom (see pictures). The screen works perfectly without any damage (the marks you see on the up right corner of the screen when it is off, it does not show when the screen is on -you don't notice any issues- The charger comes with the extension. It does not come with its.
