Automatic transmission+cruise control+navigation+multimedia.

The car is functioning without any problem as I have recently(at 86000km) taken it to Nefkens Eindhoven for maintenance and extra repair (10 years maintenance).

Here are the some details of this maintenance:

- Renew the timing belt at the customer's request because the car is almost 10 years old.
- DISTRIBUTION SET REPLACED.
- REPLACED TIMING BELT.
- Engine light is on, fault read out, catalytic converter fault, which needs to be replaced.
- V-ribbed belt drought cracks.
- Add fuel additive for internal cleaning of the fuel system for the longevity and efficiency of your engine.
- Car is in need of a service, Basic + pollen filter.

APK is valid until 18th of December. As everything, even suggestions, has been repaired by Nefkens, they offered free APK on October 31.

The only downside of this car is the minor scratches from the previous owner. I didn't mind those as they are not disturbing. You can see them on the last photos. I didn't take the car for body work to leave it

unpaint for preventing any
