Behuizing: In Win Chopin Zilver
<https://tweakers.net/pricewatch/518531/in-win-chopin-zilver.html>

i3-6100 cpu SkyLake, 3.7 GHz (standard cooler) - Socket 1151
 8G (2x 4G) 1066 MHz
 250 SSD INTEL, nu met Linux Mint om te zien dat alles werkt.

Was eerder multiboot met windows en "hackintosh".
 Knoopcel moet worden vervangen, is in bios telkens datum kwijt, maar daar heb je in Linux verder geen last van. Website www.asrock.com/mb/intel/h170m/
