

California Lightworks SolarXtreme 250 200W LED lamp light (225 EUR)

Locatie Zuid-Holland, Zoetermeer
<https://www.advertentiax.nl/x-1700664-z>

California Lightworks SolarXtreme 250 LED lamp aangeboden. Deze full spectrum COB led lamp is speciaal ontwikkeld voor de bloeifase, maar kan vanwege het volledige spectrum de gehele cyclus worden gebruikt. Slechts 1x gebruikt met goede resultaten. Wegens beëindiging hobby.

The SolarXtreme 250 is one of our easiest to use full-spectrum LED grow lights. Designed especially for grow tents and smaller scale home growing, this low-power grow light system draws just 200 watts with a maximum current of 1.6 amps at 120 volts.

The SolarXtreme series features a COB (chip on board) design and utilizes a direct AC drive, so LED drivers are not needed. This enables high-efficiency LEDs to be used, at a much lower cost than traditional LEDs. Users, therefore, benefit from full-spectrum grow lights that accommodate all stages of plant growth and flowering for many types of indoor plants, vegetables, and flowers. No adjustments are needed during the growing cycle.
