RRD Bliss V5 Wood
 Size: Bliss V5 135/39

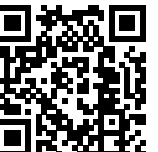

The Bliss has been in the RRD line up for many years. It is all about one thing, a “blissful” ride. Smooth and comfortable the board is perfect for advancing beginner and intermediate riders looking for a freeride and freestyle board that can deliver a smooth ride with bags of performance.

On The Water

If you've never ridden the Bliss, you are missing out, synonymous with comfort, performance and a smooth ride. It's so easy to ride it makes you a better kitesurfer every time you put your feet in the straps. When you are learning new tricks, or just improving your riding you need a board that works with you to make things easy. The Bliss V5 is that board. It rides upwind with aplomb and cuts through the chop with ease. Dig the edge in for some pop, and you'll be impressed with the snappy water release and the height you can get from the board.

Landings are simple, with the wider platform tips offering plenty of stability and the channels in the base helping to disperse the water and soften the impact from fast landings. Lighter and stronger than in previous years the build quality is of a high standard, and the Rad Pads are comfortable and give you a locked in feel to the board.

Easy to ride, forgiving and able to deliver some impressive performance if you want a board that will make you look good on the water and improve your riding while offering a comfortable, smooth ride, this is.
