

## HomeVox 15N KPN PTT

Locatie **Limburg, Venray**  
<https://www.advertentiax.nl/x-1709627-z>

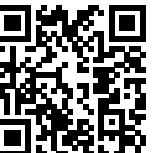

KPN Telecom Homevox 1-5N, 20-5073  
 serienr 28813  
 230VAC-50Hz  
 10 Watt  
 NL 98211003

De Homevox 1-5N is een huiscentrale van KPN voor analoge toestellen. Op de Homevox kunt u op 5 aansluitpunten toestellen aansluiten. Het toestel krijgt dan automatisch het nummer van dat toestelaansluitpunt. In plaats van telefoontoestellen kunt u ook andere telecommunicatieapparatuur aansluiten, zoals een antwoordapparaat of een fax.  
 Afmetingen 18,5x29,5x6 cm.  
 Het apparaat werkt 100%.

### Specificaties

Gratis intern bellen  
 Nummerweergave op aansluitpunt 1  
 5 aansluitpunten  
 Wekfuncties  
 Geschikt voor wisselgesprek

### Nummer weergave

|                                                                                                                                                                                                                         |                                                                                                                                                                                                                          |                                                                                                                                                                                                                          |                                                                                                                                                                                                                          |                                                                                                                                                                                                                           |                                                                                                                                                                                                                            |                                                                                                                                                                                                                            |                                                                                                                                                                                                                            |                                                                                                                                                                                                                            |                                                                                                                                                                                                                            |
