Smooth driving Camper van ready for your road trip. I've had this Van since the summer of 2020, and since I bought it I changed all brakes (plus brake fluid), tires on all four wheels, air filter, oil, and diesel pump.

The camper has an in-built extendable double bed that easily sleeps two with a length of up to 185-190cm. It comes with the pillows in the picture, and the two chairs and tables. It also comes with the bike rack for two bikes (including a number plate), and the bag sitting on the roof. All as seen in the picture.

It drives super well, but the only issue is a few small holes in the intercooler, which gives you less acceleration below 3500 RPM, and for that reason, the engine light is on. The car has some bumps and scratches, which gives it a bit of a raw look ;-)

It has a built-in battery to allow for 220v charging so you can use your laptop on the go.

It has a kitchen with two gas stoves and room for all the kitchen accessories. The water pump does need to be changed to make the water/kitchen/sink fully functional.

Can be delivered as it is, or it can be modified up in Noord-Holland, Broek in Waterland. The seller has a "Gun" license, so old law applies. Euro 3 means you can't use it on larger roads.
