

Gaming PC - RTX 2080 - i5 8400 - Water cooling (600 EUR)

Locatie **Noord-Holland, Amsterdam**
<https://www.advertentieX.nl/x-1717930-z>

I'm selling my gaming PC because I barely use it and it's just sitting here.

Specs:
 CPU: i5-8400
 GPU: RTX 2080 8GB OC
 RAM: 16GB DDR4 Corsair Vengeance (2 additional slots available, RAM is quite cheap nowadays if you want to upgrade)
 Motherboard: MSI Z370-A PRO Storage: 512GB M.2
 Case: Corsair Carbide
 Power supply: EVGA 850W modular 80+ Gold

I played the latest AC: Mirage in 4k and finished it, it runs at 60fps in High settings. Overall you can run the latest games comfortably in 1440p and ultra settings. If you're into AI, this GPU will run LLMs and other models very easily too.

It comes with a clean install of Windows 11 and ready to go. I put some love into it, built it myself and upgraded over time. It will be missed but I'd rather know that it's making someone.
