

## Various computer parts

Locatie Noord-Brabant

https://www.advertentiex.nl/x-1721735-z

Some leftover parts I've collected over the years:

- 2 power supplies;
- A motherboard with 3Gb(?) RAM and a CPU (Core 2 Duo?) installed, with I/O screen;
- A microphone pop filter;
- A Netgear WiFi extender;
- 2 120Gb SSDs;
- A soldering station + cable holder and solder;
- A grounding wrist cable;
- A USB controller:
- An HDMI-DVI converter;
- An HDMI 'switcher'.

Heads up: I'm not sure all of these parts still work.

Also, it's not an 'all or nothing' of course, just grab what you want. Not asking for any money for this, but would appreciate something from Taco Bell or Burger King in return:)

PS: ik spreek ook gewoon Nederlands
