 Stick Shift 3.0
 Backline trim's new standard.

Our iconic Shift bar is suitable for all riding styles, and is particularly popular amongst wave riders and freeriders. Entering its 4th year in production, and fast becoming the future standard of kite control, the Shift has a backline trim that provides reliable and seamless power adjustment, all within easy reach, and without having to take your eyes off the water.

Further new refinements include a reduced diameter grip, resulting in a more direct and tactile feel between the kite and bar. The diamond grip texture has also been refined, making it less aggressive on the hands while still delivering exceptional grip for all riding styles and in varying environmental
