

Ozone chrono 13m v2, ultieme lichtweerkite

Locatie

Noord-Holland, Alkmaar

<https://www.advertentiax.nl/x-1724195-z>

Ultiem lichtweer monster te koop, vanaf 13/14 knopen twintippen, daarnaast lekker lang door te varen door uitstekende depower.

High aspect kite te gebruiken voor hydrofoilen en twintippen. Hoge sprongen met een hangtime die je je niet kunt voorstellen.

De kite is in zeer goede staat ik heb afgelopen mei, alle bridles vervangen, kite vliegt zodoende als nieuw.

Komt met een naish torque bar ui 2019.

Kite mag:

"The Chrono is just a delight. At the bar it feels and turns like a big kite, but it has staggering depower, is insanely stable and quite graceful in its pull. There's actually very little change needed in your flying technique as, compared to a tube kite in these super light conditions, the Chrono actually wants to stay flying. This really is another world in terms of light wind performance. You can almost switch off from the kite and just focus on what you're doing with the board. Even if you fall forward off the foil, the kite can correct its flight and sit steadily waiting for you. Sheet in clumsily and it won't back up either. Although it's not lightning quick, it will respond to your steering fast enough around the bottom of the window if you need to correct your steering and will then almost auto-zenith. Unlike a tube kite at the side of the window in light winds, a foil doesn't want to pull itself down to the water. As long as there are air in the cells, it

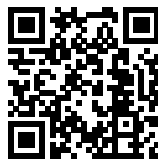

naturally wants to fly. If the kite does happen to back up in the window at any point with the tips collapsing in light wind, it will pull on the leading line and sheet out again and the high stability of the Chrono will keep it with the bar and the Chrono.
