

# QTEK 9000 HTC Universal (Vintage HTC)

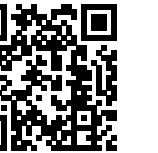

Locatie **Noord-Brabant, Eindhoven**  
<https://www.advertentiax.nl/x-1729678-z>

Verkocht als O2 xda Exec, Orange SPV M5000, Dopod 900, Qtek 9000, T-Mobile MDA Pro, I-mate JasJar, Vodafone v1640, Vodafone VPA IV, E-Plus PDA IV, etc

HTC was eerst bekend als OEM/ODM fabrikant voor grote mobiele providers en merken.

Altijd netjes mee omgegaan. Krasvrij. Uit persoonlijke verzameling, eerste eigenaar.

Styluspen en kabel zitten er bij. Hoesje destijds gekocht. Ook die is in nagenoeg.

|                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                             |
