

# Apple 85W MagSafe Power Adapter (for 15- and 17-inch MacBook (65 EUR)

Locatie

Noord-Holland, Amsterdam

<https://www.advertentieX.nl/x-1737900-z>

The 85 Watt MagSafe Power Adapter features a magnetic DC plug that causes the power cable to disconnect when too much pressure is applied. It also helps prevent the cable from wearing or fraying over time. In addition, the magnetic DC connector pulls the plug to the right place, so that a good connection is quickly established.

Once the plug is firmly in place, the LED on the head of the DC plug will illuminate; an orange light indicates the portable device is charging and a green light indicates a full charge. A power cord is included with the adapter for maximum cord length, and the power adapter (also included) makes travel easier and more convenient for the user.

Thanks to the handy design of the adapter, you can neatly wrap the DC power cable around it. That makes it the ideal travel companion.

This power adapter allows you to charge the lithium polymer battery at any time whether the computer is off, on, or in sleep mode. The adapter also supplies power when used without a battery.

Compatible with 15- or 17-inch MacBook.
