

Peugeot 208 EV 50kWh 136pk 2021 Zwart (22.500, EUR)

Locatie **Noord-Holland, Amsterdam**
<https://www.advertentienx.nl/x-1738097-z>

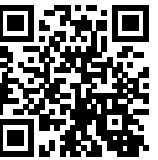

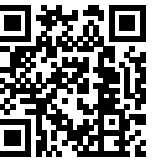

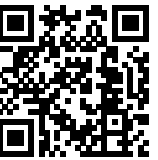

The Peugeot e-208 is a nice fully electric car. The car includes front & rear electrically operated windows, electrically folding exterior mirrors, LED daytime running lights and rear folding seats for additional storage as required.

The media system operates with buttons on the steering wheel. The car also includes automatic air conditioning. To increase convenience, the Peugeot has both an automatic switch-on lighting and a rain sensor on board, so that it can switch on the lighting and wipers itself. The car is equipped with rear parking sensors. Equipped with keyless start.

The car has 3 modes Eco, Normal and Sport. The typical max charge range shown after a full charge is 300km to 310km assuming approx. 10 degrees external temperature. In the summer, the range after a full charge is closer to 320km. This is well within the recommended range information provided by Peugeot for a car of this age and KM. Documentation available upon viewing.

The car pulls well and is joy as an intercity commuter. It performs well on the motorway and is nibble around town too. Parking is a breeze.
