I am selling a high quality 27 inch MSI Optix Monitor. HDMI cable, power cable and screws for wall mounting included. You can find its page on Coolblue if you search using the model name in the title.

The monitor is in pristine condition and has no signs of use. Its resolution is 1440P (2560 x 1440), refresh rate is 165HZ.

The monitor was originally purchased in Oct. 2022 for €469. The current market price on Coolblue is €449. It has a 9.2 user rating on Coolblue (based on 62 reviews), more background on user experiences can be found on the Coolblue page.

The resolution is sharp, the colors are excellent and the refresh rate means it is very good for gaming.

Pick-up only, I live in Voorburg. When you come to pick it up, you can of course see the monitor in action before paying. I prefer to be paid via tikkie. Let me know if you have any questions!
