

Quintezz Drive Control GPS amp Radar detector (25 EUR)

Locatie **Noord-Holland, Hoorn**
<https://www.advertentieX.nl/x-1747350-z>

Quintezz Drive Control GPS & Radar detector, helemaal nieuw in verpakking, nooit gebruikt. Detecteert radar & laser controles. Met één druk op de knop uit te schakelen zodat hij alleen nog maar via GPS waarschuwt. Verdere details in het Engels:

The mobile radar detector Quintezz Drive Control is a cost-effective entry-level device that is suitable for use in Europe. The built-in GPS receiver provides radar and laser warnings as well as warnings of permanently installed speed and red light monitoring systems.

The radar and laser warning function can be deactivated at the touch of a button if necessary (e.g. traffic control, border traffic) and reactivated later by secret code.

The Quintezz Drive Control is optimal for drivers who get by with average performance and for whom basic protection is sufficient.

Note: Although the Quintezz Drive Control has laser reception, for safe laser protection we recommend the use of an active laser blocker.

the use of an active laser blocker, e.g. Geneva FF2 or AL Priority.
