

Xiaomi Book S 12.4 (300 EUR)

Locatie **Utrecht, Utrecht**
<https://www.advertentiox.nl/x-1750275-z>

Windows op een touchscreen tablet met toetsenbord. Dat zie je niet vaak!

Gekocht eind februari 2023, is dus pas drie kwart jaar oud. Op dit moment 500 euro nieuwprijs te koop in de winkel.

Deze tablet heeft mooie stats en zoals gezegd windows 11 erop. Touchscreen met volwaardig toetsenbord erop.

<https://www.mi.com/nl/product/xiaomi-book-s-keyboard/> kun je veel meer vinden, hier de hoofd specs:

The XiaomiBook S 12.4" is powered by the Snapdragon 8cx Gen 2, a 7nm chipset from the Snapdragon 865 generation. At the time Qualcomm compared this by saying at 7W TDP it is faster than a 15W Intel Core i5 10th gen.

The 12.4" LCD has 2,560 x 1,600px resolution (244ppi, 16:10, 60Hz) and 100% DCI-P3 coverage. It promises 500 nits of brightness at full blast. The tablet's body is made out of an aluminum-magnesium alloy, it measures 8.95mm thick and weighs just 720g. The front is guarded by Gorilla Glass 3.

For connectivity, you get a USB-C port, which can drive a 4K external display as well as serve the usual charging duties. There is also a 3.5mm headphone jack on board, plus a microSD slot to expand the

memory. Speaking of, the Snapdragon chipset is paired with 8GB of LPDDR4X RAM and 256GB storage.

Other connectivity features include Wi-Fi 6E and Bluetooth 5.3. There is also a slot for detachable keyboards, at least for the Pro version. For charging, it has a 65W GaN charger, so you can expect to run a full day on your phone. It's also designed to just take a call on the go. The 1080p front-facing camera is in handy for that, it is joined by two microphones that use Qualcomm's Aqstic echo cancellation and noise suppression technology. Additionally, there are stereo speakers on the sides.

The battery capacity is not listed, but the tablet will deliver 3.4 hours of regular usage, according to official numbers. Charging is fast thanks to the 65W GaN charger, which is normally sold separately. Website www.mi.com/nl/product/xiaomi-book-s/
