

CNC Turner

Locatie **Zuid-Holland, Ridderkerk**
<https://www.advertentiex.nl/x-1755764-z>

A young and dynamic company is looking for a CNC Turner. The company is primarily active in the chemical industry. Their orders can vary from single pieces up to hundreds of pieces.

Bedrijfsomschrijving

We have a different range of clients. From small to large. Informal to formal. Together we determine what your needs are and ensure the right customer and go for the "perfect match". Are you the CNC Operator we are looking for at Maintec? Don't wait any longer and apply!

Functieomschrijving

The CNC Turner autonomously produces (parts of) products from ferrous materials using machining processes that are realised using CNC turning and milling machines.

Reads and interprets the orders and work plans (e.g. CAD-plots) and sketches. Securing and adjusting the work piece on the CNC lathe. Operates and modifies existing CNC programs (Fanuc operating system). Setting and operating the CNC lathe, performing simulations and repair any programming errors that may occur. Verifies and calibrates the measuring equipment. Finishes off and performs a final check on the work piece. Performs daily maintenance of the machines.
