

# Apple MacOS X Ventura 13.0 Bootable Installatie USB Stick (9,99 EUR)

Locatie **Friesland, Leeuwarden**  
<https://www.advertentiax.nl/x-1756259-z>

Apple MacOS X Ventura 13.0 Bootable Installatie USB Stick evt met USB C HUB a €5 extra

Metalen uitvoering dus super stevig

Met deze USB-stick heb je een bootable installatieprogramma van MacOS Ventura. Een herinstallatie of schone installatie uitvoeren is zo gepiept met deze USB-stick.

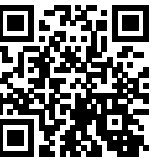

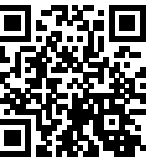

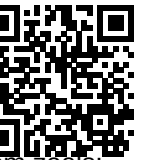

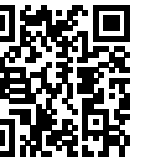

Plug-and-play:

Werkt heel makkelijk in 3 stappen, zorg dat de hdd/ssd geformatteerd is, daarna:

1. Steek de USB stick in de Macbook
2. Doe de Macbook aan en houdt de alt/option knop in gedrukt
3. Selecteer de USB stick en het installatie programma start op.

Ventura Werkt Op Deze Modellen:

MacBook 12" 2017 of nieuwer  
 MacBook Pro 2017 of nieuwer  
 MacBook Air 2018 of nieuwer  
 iMac 2017 of nieuwer

|                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                  |
