Selling 2 kites that have been used heavily but are still functional. All prices are negotiable but they need to be tested before sale.

The yellow one is in better condition. It's a 2017 12 meter kite that is perfect to learn on.

The Cabrinha radar line, though now discontinued, was originally designed for novice kitesurfers.

The red one is in less good condition. It's a 2016 10 meter radar that's been heavily used, but if it still flies I'm willing to let it go or very cheap.

I personally learned on this kite and can testify that it is (or was) a great kite to learn on. There's also a bar and lines, and both kites fit in the bag.

If you're interested, send a PM. I'm willing to help you make sure they're still functional, or even give you a lesson if you're looking to get into.
