Selling my old Omen as I got a more recent computer recently - Good condition - Repaired and refreshed recently. Runs VR and modern games like Cyber Punk / Dota / LOL / Farcry / etc... on high settings at 60 FPS - Still runs VR games very well as wellll. Case is a bit scratched but otherwise in very good condition. Have been gaming on it very recently. Computer was never overclocked so the CPU and GPU are in good condition - the PC was also cleaned up recently.

Will suit a gamer that wants to run modern games at a good price.

The RTX lights up through the glass as well for a cool bedroom lighting effect - and the PC / case is easily upgradable if you want to push it further.

Bought on cool blue / got the original invoice too. Original product description can be found on cool blue.

Processor is: Processor is a: Intel Core i7-8700 CPU-snelheid: 3,2 GHz (max. turboboost - 4,6 GHz) CPU-kernen: 6 CPU-cache: 12 MB TDP: 65 W Socket: LGA 1151

Pick up in Amsterdam Zuid - Cash in hand or Tickie only (I won't reply to offers asking for it to be sent & scam types so please don't try!) This way you can also verify it runs the games you.
