

LG UltraFine 5K Display 27quot - Perfect voor Mac users (800 EUR)

Locatie **Utrecht, Utrecht**
<https://www.advertentiax.nl/x-1761077-z>

LG UltraFine 5K Display (Model: 27MD5KL-B.AEU)

This monitor was specifically designed to work with Apple computers via a single Thunderbolt 4 (USB-C) cable.

Characteristics:

- Screen Size: 27"
- Resolution: 5120x2880 (5K)
- Refresh Rate: 60Hz
- Display Type: IPS
- Response Time: 14ms
- Very clean and sharp image, perfect for coding, video editing and graphics design.

I have two of these monitors and of course I can sell them individually. I bought them as a consumer for € 1.399,00 each from Amac, but selling for €800 each. Both displays are in perfect condition and have their original accessories and packaging.

I am going to move soon and therefore I am selling my entire Apple ecosystem.

I live in Utrecht, please let me know if you have any.
