I'm selling this iPad Pro 2nd Generation, with 12.9 inch, 256 GB and cellular option. It is in great condition, I only ever used it with a screen protector and a case around it, so there are no visible scratches or anything. The battery life is at 80ish percent and it still runs for a whole day of uni without problems. I am only selling it because I got a smaller one. I will also throw in two paper-like screen protectors and four.
