Delock PCI Express x1 Card to 1 x external USB Type-C™ 10 Gbps female + 1 x external USB Type-C™ 10 Gbps (DP Alt Mode) female

Description

This PCI Express card by Delock expands the PC by two external USB-C™ ports. Different USB-C™ devices, such as docking stations, card readers, external enclosure etc., can be connected to the card.

Video output at USB-C™ port

By using the included cable, the DisplayPort connector of the PCI Express card can be connected to a DisplayPort output of a graphics card on the motherboard. Therefore one USB-C™ port will be DP Alt Mode capable. A monitor can be connected to this port in order to transmit video and audio signals. The maximum resolution of the output depends on the input signal.
