I'm sadly selling my Mini Cooper R53s because I am leaving the country and cannot take it with me...
 Lovely and fun car, compact and handy. It has everything you can ask to a car of 2006. Beautiful interior with leader seats and steering wheel. Heated seats. Bluetooth system installed by me (car did not came with it). And the necessary cruise control and assistive parking rear sensors (beep beep).
 Wide sun roof (front and back) perfect for summer sunny days in the Netherlands (only the front roof can be open, by design).

163 original horse power, nothing modified. Equipped with a supercharger (also original) which in combination to the John Cooper exhaust produces an amazing sound and driving experience. They say it's like driving a kart, it is true.

I had the car for a year and it worked perfectly, you'll have to maintain/check the oil quite often (every 4 months more or less) as it's common in this model of car (a bit of lil consumption).

The car is in really good conditions, both interior and exterior. Except for normal wear out of parts. Only remark are the rims, which are not original and are a bit scratched. I bought it already with this rims and they work fine, they are just not aesthetically nice (probably the previous owner did not know how to park a car).

Maybe interesting to know: you can fit your bike inside. My mountain bike fits by tilting the rear seats to
