Cisco 48-poorts 10/100 Switch WS-C3560-48TS-E

The Cisco® Catalyst® 3560 Series is a line of fixed-configuration, enterprise-class switches that include IEEE 802.3af and Cisco prestandard Power over Ethernet (PoE) functionality in Fast Ethernet and Gigabit Ethernet configurations. The Cisco Catalyst 3560 is an ideal access layer switch for small enterprise LAN access or branch-office environments, combining both 10/100/1000 and PoE configurations for maximum productivity and investment protection while enabling the deployment of new applications such as IP telephony, wireless access, video surveillance, building management systems, and remote video kiosks. Customers can deploy networkwide intelligent services-such as advanced quality of service (QoS), rate limiting, access control lists (ACLs), multicast management, and high-performance IP routing-while maintaining the simplicity of traditional LAN switching. Available for the Cisco Catalyst 3560 Series at no charge, the Cisco Network Assistant is a centralized management application that simplifies the administration tasks for Cisco switches, routers, and wireless access points. Cisco Network Assistant provides configuration wizards that greatly simplify the implementation of converged networks and intelligent network services.

Features:

- 48 Ethernet 10/100 ports and 4 SFP-based Gigabit Ethernet ports
 - 1RU fixed-configuration, multilayer switch

Verentis B.V. richt zich op de inkoop en verkoop van (refurbished) hardware van onder meer Cisco, HP en 3Com, het ontwerp en de implementatie van diverse IT-oplossingen en support. Ons wereldwijde netwerk en continu anticiperen op de markt maken het mogelijk om (ook hard to find) onderdelen snel te leveren en om ook in spoedgevallen de best passende oplossing te leveren. Omdat wij zowel nieuwe als refurbished producten leveren, bieden wij voor praktisch ieder budget een passende en complete oplossing. Voor meer informatie kunt u contact met ons.
