Do you want to start an interesting job with electrical panels? React to our job offer today!

Bedrijfsomschrijving

You will work for a technical family company that specializes in products for horticulture. The company develops, manufactures and sells climate and water management control systems. Their hard work is aimed at helping farmers and gardeners transition to more efficient and sustainable production methods. It is a family company based in Maasdijk that has focused on the international market for more than 65 years. Our client is ambitious, innovative and rapidly growing, so they are looking for a new associate to join their team.

Functieomschrijving

At this company you will work in the assembly department of electrical components. This is a family company that operates internationally and helps the agricultural sector to produce more efficiently and sustainably, all thanks to their innovative products. During this job you will be given a lot of independence, as you will take charge of assembling custom-made electrical panels. Of course, the work is carried out according to technical instructions that you will follow. No day is the same here, which will provide nice variety. You will be responsible for assembling the necessary modules, cutting and connecting cables and taking the necessary measurements, right through to safety checks.

Functie-eisen

Availability to work between 32 and 40 hours per week,

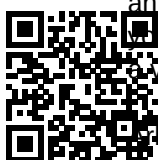

~~an education or work experience in electrical engineering~~

You have adequate knowledge and experience in using and reading technical drawings, including allations and systems.
A valid VETEC certificate.

Arbeitsverhältnisse
