

Solana saga Smartphone 30M BONK 100k ACS SEALED

Locatie **Limburg, Linne**
<https://www.advertentieX.nl/x-1773421-z>

Mijn order is niet gecancelled en telefoon is onderweg naar mij. Zodra ik hem ontvangen heb (verwachting is voor eind van het jaar), gaat hij naar de hoogste bidder. Kan bij mij thuis worden opgehaald of verstuurd worden.

Originele Solana Saga Smartphone incl cover (gesealed en ongeopend). Nog geen airdrops geclaimed. 30 miljoen \$BONK unclaimed en ook nog toekomstige airdrops confirmed. Kan worden opgehaald of meteen verstuurd worden wanneer deze bij mij binnen is. Wordt deze week verwacht.

What is Solana Saga Phone? The Solana Saga phone is a smartphone developed in collaboration between the blockchain platform Solana and the hardware company OSOM. It is designed to integrate seamlessly with the Solana blockchain, offering enhanced features for cryptocurrency transactions and decentralized application (dApp) usage. Targeted at crypto enthusiasts, the phone aims to bridge the gap between mobile technology and the blockchain ecosystem.

Potential and Announced Airdrop for Solana Saga Phone

1. MYRO (Potential Airdrop)

Project Overview: Myro, a rising star in the crypto world, recently reached an all-time high market cap of \$50 million. **Airdrop Details:** While still in the potential stage, Myro has expressed interest in joining the airdrop excitement by distributing free \$MYRO tokens to Solana Saga users.

2. GECKO (Potential Airdrop)

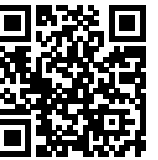

Project Overview: Gecko, a well-known name in the Solana space, has officially announced its participation. **Airdrop Details:** Details about the \$GECKO airdrop are forthcoming, but the announcement has already generated excitement among Saga users.

3. SAMO (Potential Airdrop)

Project Overview: Samo, a well-known name in the Solana space, has officially announced its participation. **Airdrop Details:** Details about the \$SAMO airdrop are forthcoming, but the announcement has already generated excitement among Saga users.

4. Solend Protocol (Announced Airdrop)

Project Overview: Solend, a prominent player in the Solana ecosystem, has joined the airdrop movement. **Airdrop Details:** While specifics are yet to be released, Solend's commitment to airdropping to Saga users is confirmed.

5. SHDW (Announced Airdrop)

Project Overview: SHDW stands out with its unique approach in the Solana community. Airdrop Details: SHDW has announced that Saga users will have the opportunity to mine \$SHDW tokens, adding a mining twist to the traditional airdrop model.

6. BONK (Ongoing Airdrop)

Project Overview: \$BONK is currently leading the charge with its active airdrop. Airdrop Details: Saga phone owners can claim their share of the massive 30 million \$BONK airdrop right now, making it one of the most immediate opportunities for users.

6. Access protocol (Ongoing Airdrop)

The free crypto train is continuing to roll for Saga phone owners, who on Tuesday began receiving tokens worth \$250 from crypto publishing platform Access Protocol.

Access Protocol tweeted that it was giving all owners of the Solana-centric phone 100,000 ACS tokens, continuing the trend of exclusive airdrops that have helped the once-struggling cellphone turn into an unexpected sellout.

Conclusion

The Solana Saga phone is not just a technological marvel; it's also becoming a gateway to exciting airdrop opportunities in the crypto world. Stay tuned for more updates as these potential and announced airdrops unfold, and experience the benefits of being a part of the Solana Saga.
