Hi,

Selling my almost brandnew OnePlus One in sandstone color with 64GB flash. It comes complete in the box with all the original accessories. I've additionally purchased original oneplus one clear case and original screen protector. You'll get all of this with the phone, with original boxes and receipt for warranty.

You can pick up the phone from my house and test it before buying. Shipping is possible within NL but you'll have to pay for the shipment.

Please don't bid if you are not serious in buying. I am selling because I want to buy iPhone.

Happy!
