For a client in Antwerp, we are looking for a Heavy Lift Supervisor.

Bedrijfsomschrijving

Nouvall Engineering Services is specialized in project support for the (petro) chemical and maritime industry.

We provide expertise in the field of Engineering, Project Management, Maintenance, Shutdowns, Construction and Safety.

Functieomschrijving

The Heavy Lift Supervisor will be responsible for overseeing all heavy lifting activities on-site, ensuring the safe and efficient movement of large-scale equipment, including a 200-meter ?are, prefabricated modules, and all sorts of other equipment.

This role will also encompass the management of site logistics and warehousing. The successful candidate will act as the asset owner's representative on-site, working closely with our EPCM contractor and our lifting contractor to facilitate all heavy lift operations.

Functie-eisen

Job requirements:
 • Coordinate and oversee the heavy lift strategy for the project, ensuring all operations comply with relevant regulations and contract specifications.
 • Ensure the lifting of large-scale equipment, including a 200-meter ?are and prefabricated modules, ensuring adherence to the highest safety and quality standards.

Job responsibilities:
 • Coordinate with the EPCM contractor and lifting contractor to plan and execute heavy lifts using SPMTs (Self-Propelled Modular Transporters) and other lifting equipment.
 • Manage on-site logistics, including the movement, storage, and warehousing of equipment and materials.
 • Ensure that all lifting activities are documented, including lifting plans, risk assessments, and post-lift reports.
