Samsung LC34J791WTRXEN is a 34-inch curved ultrawide monitor to work with multiple programs alongside each other. For example, use Photoshop on the left side of the screen and scroll through photos in Finder on the right side. Thanks to the Thunderbolt 3 USB-C connector, you can connect your MacBook to charge and transmit images with 1 cable. This screen has a Quantum Dot panel, so colors in photos and videos are displayed accurately. You can turn and tilt this Samsung monitor to work ergonomically. This way, you don't get joint aches and you can adjust the position of the monitor to your situation. Thanks to the built-in speakers, you can listen to music from your Spotify library without connecting separate.
