Bluetooth FM Transmitter - Car Kit - Car Charger - Black

Streaming music (Spotify, Apple music etc whatever you want to use on your phone),

Hands-free calling and

GPS navigating (whichever navigation application you want to run on your phone)

Often the problem is that your phone charges very slowly in the car. That is not the case with this Bluetooth car kit! The Fast Charge charger charges 4x faster than normal chargers. This way you can quickly charge your phone for short trips. Fast Charge With the new model of this Bluetooth FM transmitter, hands-free calling was possible never been so easy and safe. The rotary knob on top has various functions such as: recording, rejecting a call and calling back. This way you can fully operate your calls with your eyes on the road. There is also a clear built-in microphone on the car kit that ensures that you are clearly understood. Ideal as a car kit Through With the FM transmitter you can connect your smartphone to a free FM frequency. You play this on your radio. This way you can listen to your favorite music undisturbed. It makes the connection from your smartphone to the radio easy and precise, but keep in mind that your radio has the most influence on your sound quality. In addition to Bluetooth, you can also use a USB stick to play music. Crystal clear sound? The FM transmitter is Easy to install and use? With many functions which makes it an ideal car kit? With the charger your phone charges super

fast? Supports navigation and voice control for safe use? With built-in microphone, ideal for hands-free calling. With many functions, this transmitter is an ideal car kit. With a Fast Charge USB port, your phone charges super fast. With a Car Kit, you can always use it in the car. The Bluetooth transmitter has a 12V/24V car kit. The car kit is easy to use. The FM transmitter can be used to connect your smartphone to the car radio using a frequency such as 87.5. Tune the frequency of the FM transmitter and the car radio to the same frequency. I recommend you use the FM frequencies 87.5, 87.6, 87.7, 87.8, 87.9 and 88.0.
