

Rabbit R1

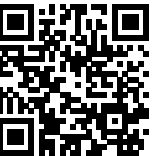

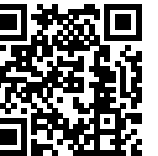

Locatie Zuid-Holland, Voorburg  
<https://www.advertentiax.nl/x-1797802-z>

De Rabbit R1 is een gadget die draait om AI. In tegenstelling tot populaire diensten zoals ChatGPT die draaien op een Large Language Model (LLM), draait Rabbit OS op een ‘Large Action Model’ (LAM). LAM is een model dat acties uit kan voeren binnen apps zoals bijvoorbeeld Spotify en Uber. De AI heeft dit geleerd doordat mensen hebben getoond welke stappen je in een app moet uitvoeren voor een actie is voltooid. Op dezelfde manier kunnen in de toekomst nieuwe acties worden toegevoegd aan het systeem.

Het gaat om een vooruitbestelling. Levering vindt waarschijnlijk plaats in maart 2024. Nieuwprijs 199.

|                                                                                                                                                                                                  |                                                                                                                                                                                                   |                                                                                                                                                                                                   |                                                                                                                                                                                                   |                                                                                                                                                                                                    |                                                                                                                                                                                                     |                                                                                                                                                                                                     |                                                                                                                                                                                                     |                                                                                                                                                                                                     |                                                                                                                                                                                                     |
