--	---	---	---	--	---	---	---	---	---

2-person dinghy included which is fairly new (not often used) & plastic two oars and manual pump.

Brand new toilet installed in 2023, with new plumbing pipelines and jubilee clips.

Diesel heater installed, runs very well. As well as manual plug in oil heater comes with the boat.

The total person on board can fit 5, as per the boat design. There is a v berth forward (2 people) with heads to starboard, the saloon table drops down and creates another double bed (2 people), and 1 more pilot berth near the cockpit for the skipper. I have sailed her with 4 people comfortably on extensive passages, and 5 on day sails with friends.

She is a bilge keel and stands on her weight nicely. She has extensively sailed across Cornish waters, Solent, and Cross-channel, to the Channel Islands, France, Belgium, and the Netherlands. She has a brand new main (black, dacron, half batten), antifouled in 2022, the engine had extensive work done with a custom shaft by the previous owner. She has a stainless steel water tank (cleaned annually), teak interior, 12v running wiring to lights, nav lights, and chargers with two service and engine batteries. A fair amount of spares and nick-nacks to keep her in good shape. She does not have "modern" nav equipment, as I wanted to keep it simple and enjoy sailing.

Currently moored in Monnickendam (15min from Amst Central) mooring fees paid until April 2024, approximate cost per year 950EU.

Excellent boat to start on the water with friends and family, enjoy cruises as well as further field sails. Apologies for average pictures, I will be onboard one a week, so viewing can be arranged. Only serious buyers..

Reason for sale - planning to upgrade to a larger.
