PCIe SSD 250H

Exhibiting more than just ultra speeds, the MTE250H PCIe SSD delivers unbridled performance, low latency, and high stability for passionate gamers. Built with a PCI Express® Gen 4 x4 interface, 3D NAND flash, an 8-channel controller, a DRAM cache, and an aluminum heatsink, the MTE250H PCIe SSD is ready to put excellence in your hand. Full speed ahead

Transcend's MTE250H PCIe SSD follows the latest NVMe 1.4 standard, supporting the PCIe™ Gen4 x4 interface, allowing four lanes to transmit and receive data simultaneously. Its 8-channel controller delivers sequential R/W up to 7,200/6,500 MB/s, and up to 530K IOPS, providing captivating performance and response times for your PC systems and game consoles.

Note: Performance is based on CrystalDiskMark v6.0.2. Level up with next-gen PCIe 4.0

Transcend's MTE250H features the new PCIe 4.0 specification, supporting a bandwidth of 16 GT/s per lane as opposed to 8 GT/s per lane for PCIe 3.0. Backwards compatible with PCIe 3.0, PCIe 4.0 unleashes higher transfer speeds and guarantees lower system latency. For advanced gamers, this means a more seamless and immersive experience. Be the coolest

Transcend's MTE250H features a high efficiency aluminum heatsink to improve heat dissipation of the high performance, compact-sized SSD. The high thermal conductivity of aluminum and increased surface area reduce drive temperatures by 15%, allowing the SSD to maintain lower operating temperatures, even when you're maxing out performance on your desktop PC or game console. Small in size, large in capacity

Featuring the M.2 2280 form factor, Transcend's MTE250H is available in capacities of up to 2TB, giving

users plenty of space to store multiple blockbuster games. Better endurance, higher reliability and PCIe 4.0, the MTE250H is equipped with LDPC Error-Correction Coding (LDPC ECC) algorithm to help data integrity. With its built-in static thermal protection mechanism, operating temperature is always monitored by the controller. The MTE250H features superior endurance and stability for high-end applications. The SSD Scope software

Transcend's SSD Scope is an advanced, user-friendly software that makes it easy to monitor the condition and optimize the performance of your Transcend SSD, ensuring that it remains healthy and continues to run fast and error-free. Guaranteed quality

The PCIe SSD MTE250H is covered by a five-year limited warranty. To ensure the utmost level of quality, Transcend SSDs undergo rigorous testing at all stages of production including tests for vibration, temperature and humidity, speed, and functionality.
