

Construction workerwelder

Locatie **Noord-Brabant, Eindhoven**
<https://www.advertentiex.nl/x-1801190-z>

Are you a welder who can compose well? Do you see a challenge in processing many parts into a product, then we are looking for you!

Bedrijfsomschrijving

The company specializes in sheet metal and construction works from engineering and prototype to the production of small and large series. Customers of this company often come with a ready-made idea or a small sketch. Then we look at the structural possibility, design, development and production. They runs all kinds of projects, from power supplies (large structures for diesel engines) for the offshore market to housings for bakery equipment in the food industry and steel parts for buses. Here you will find an open informal atmosphere and a young team with challenges at all levels.

Functieomschrijving

The position As a Welder you are responsible for performing welding operations, performing associated work, and completing measurement instructions. In addition, as a welder you must be able to work independently from a drawing and to make a welding composition / construction based on that.

Performing operations on materials using machines in accordance with given instructions, drawings and machining sequences. Correct the machine and tool settings if necessary.

Adhere to and complete the measurement instructions.

Provide data on timesheets, material consumption and production numbers.
