Hi, I have decided to sell my precious wide monitor. This beast has been excellent for multi-tasking, working, coding, editing and movie watching. Works perfectly fine, I decided to sell it because I am saving for something else.

Monitor acts as a workstation, providing extensive connectivity options, delivering stable Ethernet and up to 90W of power. Allows you to connect two PC sources to the monitor, and the fast access ports on the front lets to quickly connect other devices and/or charge phone (up to 15W of power via USB-C).

- Model: U3421WE, Dell UltraSharp
