Daarbij heb ik nog wat reserve onderdelen en dan moet je denken aan:

- originele koplampen
- motorkap origineel
- 2 voorscheren origineel
- differentieel met KAAZ 1,5 way platensper
- reserve versnellingsbak (5e versnelling stuk?)
- 16x8 originele wielen set met banden
- originele swaybars
- wat losse onderdelen die met de single turbo ombouw overbodig werden.

De enige minpunten zijn:

- beide zijschermen hebben een lichte beschadiging als gevolg van een verkeerde bandenmaat (2 goede schermen verkoop ik mee)
- stationair regelklep dient aangesloten te worden
- minimale gebruikerssporen
