What we expect of you

You understand that there is no time to lose when processing the products. The truck has to leave on

time, so everything has to be made ready for shipping. As an order picker, you collect the order through a picking list and you are responsible for the integrity of the order. You check if you will also make the order ready for shipping and you will help with the loading and unloading of trucks.

It is very interactive and it is also a challenge to get all the orders right and organize the shipment.
