Extra informatie:

A MAD SPEAKER TO FIT EVERY NEED There's nothing better than replacing that old dusty wannabe speaker that's been hiding behind your door panel. Did your old speakers break 'cause they couldn't handle your level of LOUD? The X2 series is ready for you. Be proud, be loud, be MAD! CRISP & CLEAN SOUND

Just the way you like it, just the way your car wants it – uncomplicated and made to fit like a glove. The speaker has a 13mm silk dome tweeter with NEO magnet structure and a newly developed tweeter faceplate to up your LOUD game! In boring science terms, this means you get an increased dispersion

and off-axis reproduction. It also makes the speaker a perfect fit for non-ideal OEM speaker placement. The design that holds the tweeter also holds the woofer inline. This inline placement means that the speaker is a really DESIGNED TO LAST DURABLE. The tweeter is mounted in a separate department that fully goes with our Mad Level 2 woofers. We've added a new tweeter to the USG 165mm woofer suite. The decision to do this was simple. We brought the tweeter over to the X2 series. This means that the X2 series speakers are very durable, moist proof and ready to

kick some ass! SWEDESIGN, MAD SENSIBILITIES. The 25mm XSV voice coil is wound with lightweight CCW (Copper Clad Aluminum Wire) that creates a dynamic sound. Since the Swedish weather encompasses all different seasons – the X2 series is designed to withstand them all. Hot, cold, UV rays – it doesn't matter. It's MAD and it's made to play LOUD, no matter the
