

# Brunotti Dimension 139 x 41 Brunotti High Performance Pads (300 EUR)

Locatie **Noord-Holland, Heemstede**  
<https://www.advertentiax.nl/x-1810172-z>

Pak je kans en laat dit heerlijke board inclusief pads niet aan je voorbij gaan. Mijn zoon van 17 heeft 2 zomerseizoenen op dit board leren kiten en stapt over naar iets anders. Het board is zeer beperkt gebruikt en vertoont wat lichte gebruikssporen.

De Brunotti Dimension is een vriendelijk allround twintip die perfect is voor alle soorten omstandigheden. De beginnende, maar ook zeker de gevorderde rijder zal op de Dimension eindeloos speelplezier hebben!

Specificaties:  
 Allround freeride  
 Vlakke rockerlijn  
 CNC-houten kern  
 Active Backbone  
 DRS Tech Rails  
 Hyperbolisch chassis  
 Tourque -equalizer  
 Dubbel channel  
 Dubbele concaaf  
 Inclusief Twintip-vinnen

|                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                |

---

concaaf en dubbele channels aan de onderkant heb je alle tools voor de perfecte hoeveelheid grip voor de dikste boosts! De Tourque Equalizer zorgt voor een grote torsiestijfheid. Deze torsiestijfheid zorgt voor goede boardcontrole, zelfs in de meest ruige.
