

## Volkswagen Golf VII E-golf Elektromotor 136pk 5D Aut 2017 (15.495, EUR)

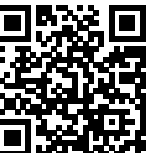

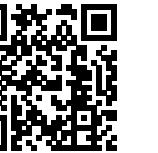

Locatie **Flevoland, Emmeloord**  
<https://www.advertentiax.nl/x-1813093-z>

Algemene informatie  
 Aantal deuren: 5  
 Kleur: Wit

Technische informatie  
 Vermogen: 100 kW (136 PK)  
 Transmissie: Automaat  
 Actieradius: 230 km  
 Bandenmaat: 205/55 R16  
 Acceleratie (0-100): 9,1 s  
 Topsnelheid: 150 km/u  
 Accu laden: Type 2, 1-fase, 7.2 kW, 49 km actieradius per uur, compleet vol in 9 uur en 56 minuten  
 Accu snelladen: Combined Charging System, 192 km actieradius per uur, compleet vol in 1 uur en 37 minuten

Maten en gewichten  
 Laadvermogen: 505 kg  
 GVW: 2.020 kg  
 Afmetingen (LxBxH): 427 x 180 x 145 cm  
 Wielbasis: 263 cm

|                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                  |
