

# Mini Mini Cabrio (r57) 1.6 98pk 2010 Wit (9.750, EUR)

Locatie **Gelderland, Duiven**  
<https://www.advertentiax.nl/x-1813225-z>

Zeer nette Mini Cabrio uit 2010. In 2015 hebben wij deze Mini gekocht bij een BMW/Mini dealer in Duitsland en de auto is vanaf die tijd bij ons ingezet als tweede auto. Volledige inderhoudshistorie conform fabrieksvoorschrift (met facturen). Recent (in 2023) zijn de remblokken, de koppelingsplaten en drukgroep vervangen. Ook hebben wij de rubber/chromen afwerklijsten rondom de cabriokap vervangen omdat deze lichte uitdrogingsverschijnselen vertoonden. APK tot mei 2024. Nieuwe APK kan in overleg worden meegeleverd.

Auto verkeert zowel technisch als opties in zeer nette staat. De velgen tonen wat kleine beschadigingen. Km stand is per 28 januari 2024. Auto wordt nog beperkt mee gereden.

De Mini staat op 17" velgen met goede banden, en is uitgerust met de volgende fabrieksopties; Lederen bekleding, Sportinterieur, multifunctioneel stuurwiel, bluetooth verbinding, boordcomputer, PDC achter, Xenon verlichting, ambiënte interieurverlichting, cabrio windscherm. Serviceboekjes en twee originele.

|                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |
