

Machine operator

Locatie **Noord-Brabant, Hapert**
<https://www.advertentieex.nl/x-1814878-z>

We are looking for a candidate for the position CNC bending machine operator for our client in Hapert.

The new factory in Hapert is fully equipped with sheet metal and tube laser machines, machining and welding, and stainless steel finishing. The company has been operating for over 30 years and employs approximately 100 specialists. Do you want to be one of them? Do not wait any longer, apply!

Bedrijfsomschrijving

Our client has been working under the slogan of high quality work for many years. In his modern factory you will find all the production techniques. In this way, at least I know for sure that it delivers quality. From drawing to finished product. With professionals, in a well-organized company. This is a company with ambitions. They want people to be able to work comfortably in a good working environment: transparent, structured and varied. Because in such an environment people can show their artistry, bring ideas and develop with them. Are you the one professional and do you feel addressed? Don't wait any longer and apply!

Functieomschrijving

As a bending machine operator, you work independently on a CNC bending machine on the basis of assigned tasks. You are responsible for the setup and adjustment, programming and operation of the cnc bending machines for both existing and new product. For this position we ask:

You have experience in a similar position
You are enthusiastic and flexible
you are accurate
Being able to work independently
Able to function in a team
Read drawing independently
You have driving license
You speak English
