Hereby selling my 2008 Honda CBR.

The motor has 37xxx kilometers and still in use periodically.

Additions:

Black extended wind shield.

Led lights front and rear.

Braking wave front disks and pads with approximately 1k kilometers on them.

Front and rear tyres Battlax with approximately 1500 km on them.

High pressure brake lines front and rear.

Bos Exhaust system(with removable DB killer).

Engine cover protection.

Fall protection.

DynoJet Quick shifter switch(for gear up eg 1,2,3,4 etc..)

Domino handles and lines with adjustable throttle response( you physically need to change the throttle gear).

Power Commander V.Quickshifter expansion module to cut off the engine for the quick shifter.

Phone USB and Wireless charging Holder.

Additionally, original exhaust and wind shield.

The engine has been maintained on regular intervals with full oil and brake fluid. The coolant does not even boil (current temp 100°C). The engine has been fully maintained and tuned. The Power Commander V.Quickshifter expansion module has been checked and adjusted. The bike has a new 1000cc set and 1000cc as part of the pre tune check up.

There are signs of normal use wear and also there is a small scratch on the left side engine cover (under the protection cover) as a result of a stand still drop while working on it.

Possibility to trade in with a touring.
