

Industriële MS-DOS amp Windows 98 legacy applicatie pc (3.900 EUR)

Locatie **Zeeland, Burgh-Haamstede**
<https://www.advertentieX.nl/x-1816631-z>

Prijs is inclusief 21% btw.

Industrial grade legacy PC Intel 233 MHz.

About this specific offer

Clean, tested, industrial grade legacy application pc with reliable Intel motherboard (with premium branded Japanese electrolytic capacitors), new reliable be quiet! power supply, Intel CPU (which can be underclocked if necessary), Siemens ECC memory, new Kingston SSD, new NEC 3.5" disk drive, new Lite-On CD-RW drive, new NVIDIA graphics card and USB A ports for easy exchange of files.

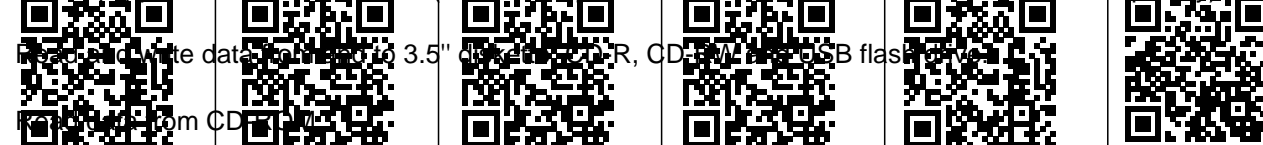

80 PLUS Gold efficiency rated power supply = lower power consumption and lower operating costs

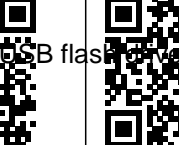

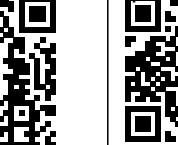

Equipped with ISA slots and PCI slots.

Installed with Windows 98 Second Edition in English and all necessary drivers. This Windows version comes with MS-DOS 7.10. Autoexec.bat and config.sys edited for MS-DOS use.

Equipped with a VGA output and DVI-I output so it can display a nice picture on a flatscreen monitor (available as an option, see below).

Also equipped with onboard sound (OPL3 FM synthesizer and Sound Blaster Pro emulation capability).
