New for 2022 the Absinthe sets a new level for high-end performance freeride boards.

Engineered from the core outwards every element from the light paulownia wood blank to the high modulus spread-tow carbon laminate has been selected for optimum weight and a performance relevant to real world conditions. This is more than a cosmetic update, this is a fundamentally new approach to the same goal of maximising performance and comfort whilst minimising weight. Building on the shaping lessons learnt through the development of the Slicer Split TT we combined the Double Step tip channels with the all new Dual-Track base to create an unrestricted water flow throughout the board's length. Supremely fast to "unstuck" in light winds and knife like upwind ability don't detract from what is undoubtably the plushest and most engaging ride in the whole Prismatic range. With the ability to adapt to your riding, mood or simply the conditions on hand the Absinthe redefines our own high standards for lightweight performance, comfort and control.
