

Mercedes S-Klasse S500 plug in hybrid (zuinig) (45.000, EUR)

Locatie Overijssel, Kallenkote  
<https://www.advertentiax.nl/x-1818229-z>

Zeer mooie en bomvolle Mercedes S500.  
Geen enkele deuk of beschadiging!  
Altijd op tijd onderhouden bij Mercedes dealer. Laatste beurt half januari 2024, ook nieuwe remblokken en schijven achter.  
Prijs is inclusief 4 zomerbanden op zeer mooie velgen (zie foto 20)  
Zeer zuinig; 7,5 liter per 100 km gemiddeld!! Schakelt voortdurend over van benzine naar elektrisch zonder dat je het merkt.  
Toch snel, 0-100 in 5,2 seconden  
Practisch alle opties aanwezig.  
Nieuw prijs:

|                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                               |
