

## Chevrolet Spark 1.0 Bifuel gereviseerd motorblok als nieuw

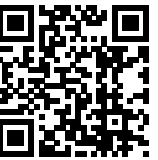

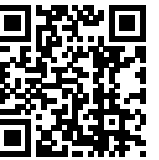

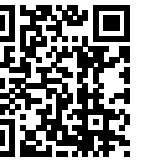

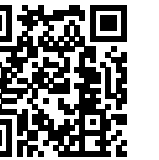

Locatie **Noord-Brabant, Sprundel**  
<https://www.advertentiax.nl/x-1822091-z>

Ik verkoop hierbij mijn Spark

Nieuwe Winterbanden remblokken Remklauwen remschijven vervangen.  
 2 lagers vervangen. Allemaal vorig jaar toen ik hem kocht.  
 6 maanden geleden motorblok laten reviseren 258.000km nieuwe kleppen nieuwe ketting alles  
 aangepakt. Factuur 3500 euro.  
 Deze wagen kan er weer tonnen tegen aan.  
 Interieur leer NETTE STAAT.  
 Vanbuiten wat gebruikerssporen rondom.  
 Super zuinig op lpg rijden 16euro 350km  
 Goedkoop in de Wegenbelasting!!  
 Heb de motorblok laten reviseren omdat ik van plan was er nog jaren mee te rijden afstanden voor het  
 werk. Het kosten me net zoveel als een 2e Hands spark te halen. Maar algemeen bekend auto op gas  
 richting 2 ton kleppen verbranden. Ik wou zekerheid !!  
 En heb motorblok weer nieuw laten maken.

Pijn in m n Hart moet ik hem weg doen.  
 Heb een bus nodig inverband met ander werk.

|                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                             |
